

# CRUISING JUST CHANGED

## ON THE CHESAPEAKE

*And, radically for the better.* Look around and see the legendary Midnight Express hull designs invading our local waters. Year after year these hulls are chosen by military and law enforcement agencies around the world for their exceptional rough water performance. Here on our Bay, you'll find these hulls powering a whole new class of breathtaking cruisers with a unique adaptability to high speed, level planing and a quiet ride that's as smooth as glass.

*Midnight Express is now on the Chesapeake and cruising here will never be the same.*

Pictured below is our **37' Full Cabin** model, setting new standards in speed, range and fuel efficiency; and yet, built with all the luxurious craftsmanship of a world class yacht. The perfect family boat, with a wide beam suitable for fishing, partying and fun, it sleeps four and packs the performance that is changing the world of cruising for boaters everywhere.

 **MIDNIGHT EXPRESS**

THE PASSION STARTS AT MIDNIGHT
