

THE WORLD OF CRUISING

JUST CHANGED

And, radically for the better. The same hull design that has proven itself over the years with our military and law enforcement agencies has now changed the way we cruise for pleasure. The legendary Midnight Express hulls are now powering a whole new class of luxury appointed sport cruisers. Each has a unique ability to maintain top end speeds while still riding like velvet in rough water. More destinations are now within your reach. Think of the fun you'll have getting there.

Midnight Express is renowned the world over for custom building sport cruisers that combine all the elements of speed, head-turning style, quality craftsmanship, easy maintenance and a ride as smooth as glass.

Midnight Express sport cruisers are here and cruising will never be the same.

Pictured below is our 37' Full Cabin model, the perfect family boat, with a wide beam suitable for fishing, partying and fun, it sleeps four and packs the performance that is changing the world of cruising for boaters everywhere.
