MIDNIGHT EXPRESS

FISHING BEGINS AT MIDNIGHT

If military and law enforcement agencies around the world choose Midnight Express to go after their big fish, why not choose the same exceptional speed, endurance and rough water dominance to go after yours? The rough water performance of the new Midnight Express 37 Open has recently been described by *Power & Motoryacht* as "amazingly solid and dry" and cited "the savvy placement and design of two aerating steps that traverse the 37's long, bullet-like running surface". The 11'6" beam is the largest in its class, providing a cockpit so expansive that it has to be seen to be believed. With triple outboards, it cruises comfortably between 40 and 50 mph with top end speeds in excess of 60 mph. Want to go faster? Just add quads and see how much more fun fishing can be.
