

37'

MIDNIGHT EXPRESS

THE PASSION STARTS AT MIDNIGHT

39'

37' The twin stepped hull is our little secret for making this 37' Full Cabin model the fastest, quietest, smoothest riding, luxury-appointed cruiser on the water. A wide body 11' 6" beam means space to spare, both on deck and in the gorgeous designer cabin where four can sleep and still stay friends. You can call it yachting. We call it pure joy. Either way, you know you're riding fast and in style on Midnight Express.

39' Ask the U.S. Customs Service which buys our 39' Cuddy and calls it the "most powerful law enforcement vessel on the water". You may have other ideas like the thrill of owning the boat that dominates the seas – and the competition - in speed, comfort and ride. Ah, the ride! Chalk up another win for the legendary Midnight Express hull design.
